Make Jabot Solve "Weighty" Problems

PATTERN 9339

Our stylist had leisure hours in mind when she designed this graceful afternoon frock for the young of larger proportions. The soft jabot cascades down the bodice in graceful folds, concealing those extra pounds and curves! The bodice gathers in front to a double-pointed yoke, another slenderizing feature with its diagonal lines. Medium-length sleeves puff, then hug the forearm below the elbow. Crepe is a perfect medium for this pattern, but in satin you'd have an all-season "best dress." Do choose sparkling novel buttons and buckle.

Pattern 9339 may be ordered only in sizes, 16, 18, 20, 34 36, 38, 40, 42, 44 and 46. Size 36 requires 4 yards 39 inch fabric. Complete diagrammed sew chart included.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE.

Send your order to The Sewing Circle Pattern Dept., 232 West Eighteenth St., New York, N. Y.

Smiles

AS SHE IS SPOKE

Teacher—I am very disappointed in the way your son, Jimmy, talks. Only today he said: "I ain't never went nowhere."

Father—He did? Why, the young whelp has done traveled twice as far as most kids his age.—Successful Farming.

Unwelcome Arrival

The Nurse—What do you think of the new baby sister the doctor left for you?

Little Elise—I don't blame the doctor for wanting to get rid of it. But why did he pick on us?—Detroit News.

Broadened Views

"Do you approve of women in politics?"

"Certainly," said Miss Cayenne. "We should be given every opportunity to discuss public affairs instead of private gossip."

Old Tightwad

Lissen—Did the doctor treat you yesterday?

Hurja—No. He charged me $3.

Wherein Ye Editor Gets in a Personal Word

A laugh is worth a million grins in any market.

The October cheer:

Roses are red,
Violets are blue;
When tobacco is sold,
Then I'll pay you.

A little while to tease the keys,
And whittle out our ads and story;
A few more misplaced "t's" and "e's"
Be losing off to glory.
Then ni more spreads; no more ems,
To blend with editorial gems.

Here's an experience many can verify: They wake up at five in the morning and from then until breakfast get to thinking about things started from New York on a soft chubby virgin somewhere in Arkansas, Lithuania, and made a forced landing in Ireland.

Sparrows Save Mom's Life

Sparrows have saved the life of a man who long befriended them at Gallbrunn, Austria. Franze Oberhuber, seventy-five years old, a peasant and a bachelor, made it a habit every morning during 20 years to feed from his window the sparrows that came regularly in masses for their meal. One morning the window was closed and there was no food for them. The noise made by several thousand birds attracted the attention of neighbors, who entered the house and found the old man unconscious in his bed. He had fallen seriously ill during the night and had nobody to help him.

Overlook Little Things

Let not the littleness of people disturb you. Remember that if you have been made big enough to do big things in life, you have been made large enough to overlook little things.—John T. Moore.

...Solves Problem of Surplus for Gardeners

Each year the average gardener has a surplus problem. His garden normally produces more vegetables during the summer than he and his family can consume.

This surplus—of little value in the summer—can be used during the winter in preparing a variety of tasty and wholesome dishes if the extra vegetables are properly stored in cellars, attics, or other suitable places. Storing of vegetables also lightens the annual canning work.

Beets, late cabbage, carrots, celery, onions, parsnips, potatoes, sweet potatoes, salsify, pumpkins, squash, and turnips may be stored in their natural condition. Beans of various kinds, including the limas, may be dried and stored.

A half-acre garden, according to horticulturists of the United States Department of Agriculture, will, if properly cared for, produce enough vegetables for year-round use by the average family.

Cellars containing a furnace usually are too warm and dry for storing root crops, but a room may be partitioned off in one corner or end of the cellar and temperature controlled by means of outside windows. Outdoor cellars may be built at a low cost.

Pleasures of Literature

It is a great mistake to think you cannot understand the pleasures of literature unless you possess a library. A very few books will serve, if rightly chosen.—John Morley.

A new invention is a radio alarm system for houses, that, when turned on at night creates a sensitive electrical zone around the exterior of the dwelling, several feet deep. When an intruder steps into this "field," a circuit breaks, the alarm sounds, and floodlights brightly illuminate the walls and yards. Users fearing that their power lines might be cut can connect the device to a storage battery.
